School Board Budgets For Record \$73,000 In 1948

Teachers Salaries Given As \$54,000 Boost \$3,000 Over 1947; Item For Supplies Cut Drastically

Provision Made For Additional \$600 Towards Janitors' Salaries; Other Items Follow Same Pattern As Past Years

Coleman School Board has presented a budget totalling \$73,000 to the town council and asked that it be given that amount with which to administer the Coleman schools during 1948. In 1947 the school budgeted for \$71,000. Despite the wage increase sought by the teachers' negotiating committee the Board's figure of \$54,200 against that of \$51,528 for 1947 does not appear as if the Board plans on granting a heavy wage increase.

The item covering janitors' salaries shows a straight \$600 increase, \$8,400 this year against actual expenditures of \$7,848.00 in 1947.

School supplies, it appears, will be cut drastically as the budget calls for an expenditure of \$1,500 against actual expenditures of \$3,776 in 1947. The rest of the budget follows routine spending.

Following is the new budget which is at the present time in the hands of the town council:

| Payments | Estimates | Actual cost 1947 |
|----------------------|-----------|------------------|
| Fuel | \$1,000 | \$956.12 |
| Print & Stationery | 300 | 284.94 |
| Water & Light | 950 | 840.75 |
| Repairs | 2,000 | 1,824.88 |
| Supplies, Elem. | 1,500 | 3,776.68 |
| Janitors' Supplies | 800 | 769.58 |
| Sundries | 200 | 411.58 |
| Teachers' Salaries | 54,200 | 51,528.81 |
| Sec. Treas. | 1,100 | 1,100.00 |
| Auditor | 100 | 109.00 |
| Equipment | nil | 672.50 |
| Compensation | 100 | 94.43 |
| Caretaking, Janitors | 8,400 | 7,848.48 |
| Insurance | 300 | 193.50 |
| Transportation | 1,000 | 985.00 |
| Unemployment, Ins. | 105 | 103.56 |
| Asbes | 70 | 63.00 |
| Retirement Fund | | |
| Teachers' | 250 | 216.35 |
| Substitute | | |
| Teaching | 500 | 455.05 |

Women's Auxiliary, B.E.S.L., Celebrate 13th Anniversary

On Friday, March 19, the Women's Auxiliary, B.E.S.L., celebrated their thirteenth anniversary with a banquet and dance in the I.O.O.F. hall. About forty members and their husbands sat down to a grand banquet served by the executive committee.

The head table was centred with a handsome birthday cake, made by Mrs. W. H. Garner, and flanked with spring daffodils.

The address of welcome was given by Madam President Annie Lowe and responded to by Legion president, Fred Hirst. Other speakers included Mrs. E. Lonsbury, George Derbyshire and W. H. Garner.

A musical program followed consisting of community singing and vocal solos by Mrs. E. Kostelnik and Mr. Dave Sudworth which were well received. Dancing rounded out the rest of the program.

Prior to the anniversary festivities the regular meeting of the Auxiliary was held at which the Past President Mrs. Bella Brown was presented with her Jewel by Mrs. H. Hubert, Past president. Mrs. Brown thanked all the members and the executive for the support given her during her term of office.

LICENSE PLATES MOVING STADIALLY

Auto license issuer Fred Antrobus reports that local motorists are maintaining a quiet but steady demand for their 1948 plates for car and truck.

This year local motorists' plates start with the serial 47-501. To date seventy-five sets have been sold to car owners. Blairmore motorists maintain the same serial numbers starting with 37-.

Blairmore Lions To Sponsor Mixed Choir

When the Community hall burned down Coleman was left without a suitable hall and as a result Coleman Lions club had to cancel their commitment with the University Mixed choir which had been scheduled to appear here in May.

Before cancelling the contract with the choir however the local club contacted the Blairmore Lions club and suggested that the choir be brought to Blairmore. The Blairmore Lions agreed and Pass music lovers will still be given the opportunity of hearing the choir when it comes to the Columbus hall.

Coleman Lions will aid the Blairmore club in every way possible and it is quite possible that some local families may be asked to assist with the billeting of the singers should Blairmore not find sufficient billets in their town.

POLISH SOCIETY TO HOLD TAG DAY

Coleman Polish Society were given permission by the town council on Tuesday evening to sponsor a tag day on behalf of the Polish Relief Fund on Saturday, April 3.

Previous sanction had been given the Society by council to hold a tag day on Saturday, Jan. 24 but the strike was in progress on that date and the tag day was cancelled.

The national Polish Relief Fund campaign was held during December and January and sought to raise one and a half million dollars. In 1946 the last national campaign, the Pass society was given a quota of \$1,000 and raised \$1,400.

Prairies Could Be Made Double Their Production With Adequate Water Supply . . . Jensen

District Lumbermen and Forest Officials Among Board of Trade's Guests To Hear Distinguished Speaker.

A regular supper meeting of Coleman Board of Trade was held in the Grand Union Hotel last Thursday evening.

Guest speaker for the evening was Mr. H. G. Jensen, of the Eastern Rockies Forest Conservation Board. Mr. Jensen in his speech outlined the plans of the board for the near future.

The Conservation Board was organized last fall under the direction of the Dominion government. It consisted of three members, two being appointed by them and one by the government of Alberta. The board was granted \$3,000,000 for the capital building and development of the eastern slopes and a maintenance sum of \$300,000 per year for the next twenty-five years.

Mr. Jensen told of the widespread starvation and hunger throughout the world, stating that nearly one third of the world's people are hungry today. The only way, he stated, to have permanent peace is to have everyone fed properly. To do this, the soil of agriculturally inclined nations must be fertilized and worked and made to produce from two to three times the amount of foodstuffs they are now producing. Canada's population might well be increased to 50 millions in the future years—if we can feed them.

The prairies are the most acceptable parts of Canada to be made to double their production figures, he stated. But, in order to do this, the land must have an abundant supply of water.

The Eastern Rockies Forest Conservation Board has an area of 9,000 square miles under its observation and development, and their primary purpose is to maintain Alberta's forests in such a manner as to prevent the hazardous cutting of timber which causes spring floods and later in the season, droughts. When forests are preserved and cut wisely, the spring run-off is casual and steady throughout the entire spring and summer, supplying the land with sufficient water for successful irrigation.

Irrigation is becoming widespread in Alberta, with a half million acres already under water and another million irrigable if and when the need arises. Mr. Jensen used as an example of the value of irrigation, the land around Taber, east of Lethbridge. Before this area was irrigated, land sold for as little as \$2 an acre and produced next to nothing. Now, it sells for as much as \$150 an acre and its harvests are bountiful.

Mr. Jensen went on to say that the eastern slopes of the Rocky mountains are known to be the most important strip of timber in the whole of Canada, because of the water they control.

The first thing the board will

SPECIAL FARE FOR EASTER HOLIDAY PERIOD

Special Fares for the Easter Holiday period on Canadian Pacific Railway Lines are announced by H. A. Christie, agent. The low fares will be available from Thursday, March 26th, to 2 p.m. Monday, March 29 and will be good to return leaving destination up to midnight of Tuesday, March 30. On branch lines where there is no train service on March 30, tickets will be valid to return on first available train thereafter.

The low rate of single fare and one third for the round trip will be good between all stations in Canada and in all classes of accommodation.

Prairies Could Be Made Double Their Production With Adequate Water Supply . . . Jensen

do, said Mr. Jensen, is to build a network of roads throughout the eastern slopes so that no single area is isolated and so fire fighting equipment and men can be transported to the scene of a fire in the quickest possible time.

A road will be built from Waterton National Parks on the south to Kananaskis on the north as soon as possible. Surveying parties for this project are now being organized and will be ready to go into the field as soon as weather permits. The general route of the road is only known at this time. The road anticipated, will be 22 feet in width and have a gravelled surface. It was stated by the speaker that this would run through the Crown Nest Pass. However, it was not disclosed what part of the Pass it would take.

In the building of the road, Mr. Jensen stated, all such factors as a scenic beauty for the tourist and utility values for everyone as well as its primary purpose of firefighting would be taken into consideration.

A vote of thanks to Mr. Jensen and his associates was taken by the Board of Trade inviting them back soon and often.

Accompanying Mr. Jensen were Messrs Walker and Davidson. The former is head engineer for the Board while the latter is consulting Forestry expert. From Burnis came a delegation headed by Mr. Van Wyck, of the Burnis Lumber Co. In addition there were several forest rangers and game wardens present.

Lions To Sponsor Local Cancer Campaign

Once again Canada will launch a nationwide campaign in April to raise funds with which to promote cancer research. A letter to this effect was received Monday evening by Coleman Lions club, sponsors of the 1947 local campaign at which time \$1,192 was raised.

The province has again been divided into zones and the Pass lies within the Lethbridge zone. The circular letter received from Lethbridge asked the Lions club to consider sponsoring the campaign locally. Following some discussion it was decided that the club would sponsor the campaign and John McDonald, Fred Guerin and Maurice Cooke were appointed to the committee to administer the campaign.

In order that the entire membership receive the opportunity of taking part in the campaign the town will be zoned in smaller areas than last year so that the work can be done more quickly and efficiently than last year.

Mr. V. Meach, Lethbridge architect, was a visitor here on Friday on business pertaining to the construction of the new Palace theatre.

Portion Main Street To Be Improved; "Trouble Shooter" Appointed To Track Down Radio Interference

Portion of Main Street Fronting Burnt-Out Buildings to be Raised to Level Present Sidewalk; Will Facilitate Parking And Drainage

Regular meeting of the council was held Tuesday evening. Present Mayor F. Abousafty and Councillors Dutil, Jenkins, Ramsay, Wilson and Wood.

Mrs. L. Hannah was present to ask council's recommendation that she be given a provincial license to operate a beauty parlor in town. Request granted.

Mr. Mike Opulski was present to ask council's permission for the Polish Society to stage a tag day April 3 in aid of the Polish Relief Fund. Request granted.

Mr. Wm. H. Haysom was present to protest against the constant radio interference on Sixth street. He stated that this winter had been the worst ever experienced and that he would appreciate something tangible being done by council to eliminate the nuisance.

Council replied that it was aware of the constant interference but had been waiting the arrival of the radio car from Calgary. Mr. R. A. Montalbet, local electrician, has entered into an agreement with Coleman Light & Water Co. Ltd. pertaining to the electrical system and it was agreed that in addition to his present duties he be assigned the task of tracking down radio interference whenever it is reported in any part of town and that he be constantly available for this work. The Mayor was authorized to interview the radio inspector upon his arrival and prevail upon him to spend a reasonable length of time in town in order to make a genuine attempt at tracking down interference.

Mrs. Hilda McKay was granted permission to re-open The Famous Cafe on Central

ANNOUNCEMENT

Mr. and Mrs. E. Gudmundson announce the engagement of their only daughter, Helen Margaret Marie, to Mr. Raymond Allen Neddo, second son of Mr. and Mrs. W. J. Neddo, of North Cobalt, Ontario. The marriage will take place in St. Paul's United church, Coleman, Saturday, March 27, at 3 p.m.

Four Dogs Poisoned In Graftontown

Four dogs have died in recent days in Graftontown as the result of poisoning. The owners are firmly convinced that someone is poisoning the animals and destroying them indiscriminately.

Editor's Note: One will recall that every year at this particular time many dogs die of poisoning and always the belief of the owners of those dogs poisoned is that some person is deliberately poisoning them. It is now that foodstuffs thrown outdoors during the winter is being thawed out and some is in a poisonous state. It is thought, and the police also believe this theory, that the dogs are eating poisonous food as they scurramge through piles of trash and it is not "some person or persons unknown" who is causing their untimely deaths.

Mr. and Mrs. Gillespie Honored By Pythian Lodges

Presented With Gifts: Banquet, Concert and Dance To Celebrate Golden Wedding Anniversary.

(E.W.) Saturday, March 20, the Knights of Pythias and Pythian Sisters held a joint banquet and social evening in the St. Alban's Parish hall to pay honor to their esteemed Brother and Sister, Mr. and Mrs. David Gillespie, on the occasion of their Golden Wedding anniversary.

The address of welcome was given by C. C. Roy Whitehouse following which the honored guests and their family members sat down to a sumptuous banquet served by the social committee. The tables were beautifully decorated with colors of the Order in Daffodils and Carnations. The guests-of-honor had a three tiered wedding cake centre their table.

The toast "To The Honored Guests" were given by P.C.C. Wilmer Cox, Brother Gillespie responding to the well wishes of the gathering.

Brother Ernie Hill was program chairman and kept activity (Continued on Page 4)

The Trans-Canada Highway

FOR MANY YEARS THERE HAS BEEN considerable interest in this country in the completion of an up-to-date highway, linking Canada from the East to the West coasts. There are some parts of the present trans-Canada highway which compare favorably with any roads to be found on this continent, but in other sections it falls far short of modern standards for all-weather highways. Canada is a very large country, and the trans-continental highways must, of necessity, pass through many miles of sparsely-populated land, where there would be little other than long-distance traffic. The construction of modern, hard-surfaced roads requires a great deal of labor and involves the expenditure of large sums of money. During the war, and in the years which have followed, labor has been scarce and conditions have not been favorable to commencing a roads project of the extent of a coast-to-coast highway.

Many Favor Such A Road

There are, however, many who favor the building of such a road as soon as conditions are opportune for such an undertaking. Recently, a delegation representing the Canadian Chamber of Commerce, waited upon the Honorable J. G. Glen, Dominion Minister of Mines and Resources in connection with this matter, and informed him that the Chamber of Commerce believes that the present trans-Canada road facilities are inadequate. "A modern, hard-surfaced highway would be a great asset in helping to unify the United States and Canada, increasing tourist traffic, and for purposes of national defense," the spokesman for the delegation stated. The completion of an up-to-date highway system from the Atlantic to the Pacific by Federal and Provincial governments, to be undertaken when conditions are favorable, was advocated by these delegates on behalf of their organization.

An Advantage To Canada

It has been pointed out frequently by interested organizations such as the Chamber of Commerce, that it would be to the advantage of the whole of Canada to build and maintain a fine highway across the country. Tourists have become the basis of a new and flourishing industry here, and good roads have come to be recognized as not only a convenience to the local population, but also as a source of revenue from tourist traffic. At present there is no direct connection between Eastern and Western Canada by means of a first-class motor road, and as a result, much money is lost to this country each year because motorists travelling between the East and the West must travel a considerable part of the way in the United States, if they are to have a hard-surface highway all the way. The building of an up-to-date trans-Canada highway would undoubtedly be a great asset to the country and it is to be hoped that one may be completed as soon as conditions are opportune for such an undertaking.

76,738 Homes Built In Canada In 1947

OTTAWA.—An estimated number of 76,738 dwelling units were completed in Canada during 1947, the Dominion bureau of statistics announced.

This brings the total number of dwelling units completed in the first three post-war years to almost 200,000, the bureau said. In 1947 76 per cent of the dwelling units were built in metropolitan and other urban municipalities.

The earliest libraries were probably temples.

Grasshopper "Storm" Signals Are Out

The above map shows predicted grasshopper infestations in Saskatchewan and Alberta next summer, and indicates the relative severity of the attacks in different areas.

PERIODICALLY, Canada's Prairie Grain belt is devastated by severe grasshopper plagues. Before federal and provincial entomologists started to study this particular pest, farmers had little knowledge or advance notice of these scourges, but today much is known and farmers are warned in advance when extra severe outbreaks are expected.

This year, entomologists of the Dominion Department of Agriculture at laboratories in Lethbridge, Saskatoon and Brandon, and in co-operation with the provincial entomologists, have mapped out the areas where serious hordes of grasshoppers can be expected to attack farmers' grain crops.

In the accompanying map, the areas

in which outbreaks will be severe, moderate and light, are shown for the western half of Saskatchewan and the lower part of Alberta. There are also a few areas in Manitoba where a light emergence of grasshoppers is expected, but it is in Saskatchewan that the worst outbreaks are feared.

With the provincial authorities in the lead, farmers both in Saskatchewan and Alberta can do much to ward off the worst effects of these grasshopper outbreaks. Poison bait will be available through municipalities and local improvement districts, and there will also be leaflets as well as bait supplies and instructions available from your agricultural representative. Farmers themselves must

get busy and organize in preparation for bait spreading and should watch for the halting reports from district officials.

The above map was supplied by the Dominion Entomological Office, Lethbridge, Alta. Rainfall will have some bearing on the damage.

Canadian Maple Trees Planted At Nurses' Rest Home In Britain

VANCOUVER.—Three maple trees, flown from Canada were planted by Princess Alice when she officially opened a nurses' rest home in Britain. Many of the furnishings for this retreat in the country for nurses injured during the last war, were provided by nurses in this Dominion.

This was described by Miss Grace M. Fainley when she spoke to Women's Auxiliary to Vancouver General Hospital recently.

The Canadian Nurses' Association has contributed \$20,000 as a rehabilitation fund for British civilian nurses unable to carry on. Some have received courses to retrain them for earning their own living, others have been varied help.

Bus Made 30-Hour Dash To Meet Deadline

PENTICTON.—Bus service by Columbia Coachways Ltd. is in operation here, but it was a race against time and the elements to get it started.

A year ago the company was granted a franchise to operate a bus service with January 23, 1948, as a time limit, and postponed a \$3,000 bond as good faith.

January 21 the company got delivery of its first bus—in Vancouver. Over winter roads company men drove in a 30-hour dash to get the bus on Penticton streets before the deadline.

Now, City Council has decided the company must comply with its agreement to provide service, and returned its \$3,000 bond.

11-YEAR-OLD VANCOUVER BOY MAKES SOLO FLIGHT

VANCOUVER.—A silver monoplane took off from Vancouver airport, climbed to 3,000 feet, circled the field and made a perfect landing.

Out stepped John Davies, 1630 Salisbury, believed the youngest solo flier in B.C. air history.

John, an 11-year-old Vancouver boy, has been flying for 20 months. But he won't be able to get a license for another six years.

The trip was his first solo flight. It drew praise from his Vancouver U-Fly instructor, Ed Bell, who said John was a better pilot after eight hours dual instruction than most adults.

The lad is the second in his family to take to the air. His mother, Mrs. W. G. Davies, won five hours flying instruction as second prize in a "Learn to Fly" contest last August.

PHILIPPINES TO FIGHT DROUGHT WITH DRY ICE

MANILA.—The Philippines Government plans to fight a drought in the sugar producing areas of negros and occidental provinces by bombarding clouds with dry ice to bring rain, it was reported.

A government spokesman said the drought threatened newly planted sugar cane.

BOY BITES DOG

COBBETENAY, Ont.—Master Robbie Woods bit his cocker spaniel pup on the nose and his parents reprimanded the dog before further damage could be inflicted. Robbie is only 18 months old.

Canada's War Book Started

OTTAWA.—Preparation of Canada's Second World War book of remembrance—a detailed, precise task expected to take five years—has been started here by Lt.-Cmdr. Allan D. Beddoe, 54-year-old sailor-artist.

The book will contain some 45,000 names of fallen Canadian service men, compared with 66,551 names in the First World War book, now in the quiet sanctuaries of the Memorial Chamber in the parliament buildings' peace tower.

No decision has been made on the ultimate location of the second book. The memorial chamber, a small peaceful room of which the first book is the centre, is devoted wholly to the deeds of Canada's First World War forces. Its solid, intricately-carved stone work depicting First World War scenes and emblems might not easily be altered to accommodate tokens of the recent conflict.

The first book took 10 years to complete, the work being delayed by the death of the artist when he had only one of the 600-odd pages illuminated.

Lt.-Cmdr. Beddoe, who completed the decoration of the first book, is in charge of the new work.

He served with the R.C.N.V.R. during the Second World War.

The first part of his new work—compilation of a card series on which appear the names to be inscribed in the book by hand—is under way. The names will be listed by year of death.

The new book, about 450 pages will be of rare vellum, a sheepskin material manufactured in England. The first 100 sheets already have been received here.

The exact boundaries of Saudi Arabia are indefinite, but the country contains more than 800,000 square miles.

U.S. Population Now 145,340,000

WASHINGTON.—The United States population reached a high of 145,340,000 at the start of this year after 1947 proved the biggest single year of growth in history. A record number of babies, 3,908,000 were born in 1947.

Continuance of a low death rate and a net immigration of about 215,000 persons also helped the net boost last year.

LEFTOVERS TRANSFORMED

Last night's leftover roast makes tonight's "Magic" Meat Rolls

- 2 lbs. of beef
- 1 cup chopped leftover meat
- 2 lbs. chopped onions
- 2 cups flour
- 4 tsp. Magic Baking Powder
- 1/2 tsp. salt
- 4 lbs. shortening
- 1/2 cup milk, or half milk and water

Mix meat, onion, butter. Sift together dry ingredients, mix in shortening, add liquid to make soft dough. Turn on floured board; knead lightly. Roll 1/4 inch thick, spread with meat mixture. Roll into jelly roll, cut in slices. Bake on baking sheet in hot oven (425°F.) for about 14 minutes. Serve with tomato sauce.

APPEAL CHILD ABANDONING DECISION—Despite counsel are preparing to appeal conviction of Mrs. Edna Emery and her husband, Leo Emery of Ottawa, on charges of failing to provide for their children. The magistrate sentenced the 29-year-old mother to the Mercer reformatory for women in Toronto for five months. The father, Leo Emery, is to go to the Ontario reformatory at Guelph for five months definite and one month indefinite.

SEES JEWISH HOMELAND WITHIN YEAR—Despite every lamentable British obstacle and despite the inadequate concern of my own government, the new Jewish state will be established in Palestine before the end of the year, stated Rabbi Stephen S. Wise, New York, president of the World Jewish Congress. Dr. Wise, shown at right, was interviewed in Toronto, Ont., where he installed Rabbi Maurice L. Perlzweig, (left), in his new congregation.

REVEALS MIRACLE TREATMENT FOR INSANE—A new radical and near-miraculous surgical technique for treating "incurable" mental patients was revealed recently by doctors at the Western Washington State hospital in Seattle, Wash. The new method, called trans-orbital lobotomy, has already been performed on 41 patients at the hospital, with "very worthwhile" changes in 80 per cent. of the cases treated. Here, Dr. W. S. Keller (seated), hospital superintendent; James G. Shanklin (centre), and Charles H. Jones, who have performed the new operation, look over before and after pictures of patients who have undergone the new surgical treatment.

CHILD GIVES ALARM—Timely discovery of a blaze by nine-year-old Carol Brammer, Toronto, Ont., gave nine occupants of a three-story house time to flee the burning structure. Carol's father, Edwin Brammer, raced upstairs through billowing smoke and rescued Mrs. Nellie Segriff, a cripple, from her second-storey room. Carol is shown here with her mother.

BRITAIN COMPLETES WITHDRAWAL OF POWER FROM INDIA—King's and regimental colors are dipped in salute to India as the last serving battalion, the First Battalion Somerset Light Infantry, marches in farewell parade in Bombay before embarking on the Empress of Australia for voyage home. The troops are marching into the Gateway of India. The sub-continent now is two dominions, India and Pakistan.

JEWISH HADASSAH HOSPITAL ATTACKED BY ARABS—This is the Jewish Hadassah hospital in Jerusalem, Palestine, which was attacked by a large party of Arabs, touching off a battle in which two Arabs were killed and 14 Arabs and Jews were wounded. The battle was marked by a series of heavy explosions, which resulted from the use of mortar bombs by the opposing forces.

MAKING FRIENDS—The farmer in this picture is practising the "Make Friends of Your Pigs" advice given by an expert swine man to an Ontario meeting recently. Handled carefully and kindly from their early days the young shoats will grow into bulky carcasses to fill bacon contracts profitable to growers.

PASSENGER TRAIN CRASHES INTO STANDING FREIGHT—Bud Hayes, trainman, (left), was thrown through glass door, suffered slight shock when Toronto-Detroit flyer hit a standing freight near Thamesville, Ont. Passengers were shaken up. Four box cars were reduced to splintered wood by impact. Engine of crack train hit broken switch and plowed into freight. None of coaches was damaged.

MR. FARMER, IT'S UP TO YOU NOW!!

This is Your Opportunity To Help Yourself!!

Legislation is before Parliament at Ottawa to extend government monopoly of wheat marketing to include oats and barley. It enacted YOU WILL BE COMPELLED TO SELL YOUR OATS AND BARLEY AS WELL AS YOUR WHEAT TO THE CANADIAN WHEAT BOARD.

However, to make this monopoly effective, it may be necessary that each provincial legislature pass a law permitting this government monopoly.

So this is your opportunity to protest against the extension of the monopoly. You were not given an opportunity to protest against the wheat monopoly. But YOU CAN AND SHOULD make protest now. Those who favour the monopoly are working tooth and nail to get control over your grain. You must fight against them with all your might.

IF YOU DON'T PROTEST NOW, and your neighbours, of like mind, don't protest now, you may have only yourself to blame. Provincial Legislatures may fall in line with Parliament and all those dependent upon grain growing for a living will be absolutely in the power of political pressure groups and so-called "farm leaders".

The Winnipeg Grain Exchange has endeavored to show wheat growers what monopoly has cost them. Controlling prices for wheat was a war measure. Nobody grumbled about that. But the monopoly was extended to peace time without even asking the consent of wheat growers, who, as a result, have lost hundreds of millions of dollars. They shouldered the burden, instead of it being paid by ALL THE TAX-PAYERS.

If the Government monopoly is extended to oats and barley another link will be forged in the grain grower's Chain of Bondage.

YOU SHOULD LOOK AHEAD

It is the future, not the past, that is now most important to farmers. Think of the dangers that threaten you. No man, and no group of men, is WISE enough or GOOD enough TO BE TRUSTED WITH UNRESTRICTED POWER. "All power tends to corrupt . . . absolute power corrupts absolutely".

Your wheat is now marketed at POLITICAL PRICES and for POLITICAL PURPOSES. Oats and barley are subject to even more political pressure, and since VOTING POWER RESTS WITH CONSUMERS, there will be a constant political battle between producers and consumers . . . and PRODUCERS WILL BE THE LOSERS.

The Grain Exchange has done, and is doing all that it can to uphold the farmer's Freedom of Choice in selling his grain. Let those farmers who wish to sell through the Wheat Board do so; but demand the Right to sell your grain when, where and to whom you choose at prevailing market prices.

If you are Opposed to Government Monopoly and Compulsion

ACT QUICKLY BEFORE IT IS TOO LATE.

Write at once, or, better still, WIRE your Member of Parliament at Ottawa and your Provincial Representative in Regina, Edmonton or Winnipeg. State your strong objection to extending Government monopoly to oats and barley. Tell him you want freedom to choose between selling to the Wheat Board or on the free and open market, whichever is most profitable to you. Get neighbours who agree with your views to do it. The more protests received, the better. This may be your last opportunity to help yourself and keep politics out of your grain, but you must ACT QUICKLY—OTHERWISE YOUR PROTEST WILL BE TOO LATE.

WRITE FOR THIS FREE PAMPHLET

We have published a pamphlet "Just a Minute with the Grain Exchange". It shows what CONTROL OF WHEAT has cost Western farmers, and will indicate what can happen to control of oats and barley. Fill out and mail the coupon below and a copy will be sent BY RETURN, POSTPAID.

The Winnipeg Grain Exchange,
Winnipeg, Manitoba.

Please send me your pamphlet "Just a Minute with the Grain Exchange". I, myself, may have some questions to ask you.

LETHBRIDGE

In The Legislature

By E. O. Duke

The debate on the Budget has concluded and the House has spent considerable time on the committee as a whole, considering the budget estimates and bills presently before it. A number of resolutions have been introduced, including one moved by Mr. Ward of the Navy, and seconded by Mr. Taylor of Drumheller, requesting that the present basic \$75.00 per month for total disability pensions be increased to \$100.00 basic for veterans suffering 100% disability. The Dominion Government is proposing to increase the basic to \$87.00 per month. It was argued that unskilled men are earning more than this and that this was not fit pay for veterans who have rendered such service as that given by our disabled veterans.

Dr. W. W. Cross gave the House much information regarding his department. He told the Assembly that Alberta now has 7.3 hospital beds per thousand patients, and that 7.5 is supposed to be the maximum number required. Hospital grants were increased last year from 45 cents to 70 cents a day; free maternity hospitalization last year cost \$700,000.00; nearly twice as many patients were examined and treated for cancer as in any previous year. New buildings at the Red Deer Mental Institution will accommodate 150 patients, and more construction is anticipated this year at Ponoka and Oliver. There were 124,000 people checked last year for tuberculosis, and 742 patients were treated. The number of new cases discovered was 17% less than in 1946, which shows that this disease is on the decrease. A new sanatorium will be built this year in Edmonton; the free blood transfusion service, started in the summer of 1947, made possible by the Department of Health, the Red Cross and the citizens who donate blood, proved very successful. Six thousand patients were given blood transfusions in six months; it will necessitate 3,000 donors a month to keep up the necessary blood pool. A bill, known as The Blue Cross Bill, has been introduced; it will not interfere with the hospitalization services provided by the municipal hospitals, but will give citizens living in areas not organized an opportunity to enter into the pre-paid scheme. At the same time, it will give an opportunity for anyone else to enter into the pre-paid scheme, which aims to give hospitalization anywhere in the world.

Changes in the Vehicles and Highway Traffic Act now read: "That no vehicle, other than one used by a fireman, a policeman, or as an ambulance, can carry red lights or flashing lights other than clearance or signalling lights". It established a speed limit of 55 miles an hour; and 45 miles an hour when lights are needed. Speed limits will be set in designated highway areas under construction or repair, and signs will be erected indicating the speed there. Any motor vehicle commencing to pass another vehicle must now sound its horn. Bicyclists and other slow-moving vehicles must keep to the extreme right side of the travelled road; and although cyclists and motorcyclists or horsemen may ride two abreast, upon being overtaken they are required to travel in single file as near to the right side of the highway as conditions permit.

Mr. and Mrs. Gillespie

(Continued from Page 1)

swinging in fine style. M.E.C. Mary Clarke presented Sister Gillespie, on behalf of Progressive Temple No. 3, with a gift and C.C. Roy Whitehouse presented Brother Gillespie with a gift on behalf of Sentinel Lodge No. 25. Bro. Gillespie thanked everyone for the kindness shown them saying the evening would be remembered for years to come.

Old time songs were sung. Sister Nora Goulding accompanying on the piano. The highlight of the evening was a mock wedding which kept the guests in uproarious laughter. Artists included Sister M. Martland as ring bearer; M.E.C. Mary Clarke as the bride; Bro. Joe Kostelnik as groom; Bro. J. Clarke as best man; Sister N. Goulding as Matron-of-Honor; Sister L. Lloyd and Sister M. Gate as bridesmaids while Bro. Ernie

Hill played the part of the Reverend. Sister Amy Penney played the wedding music.

Scottish dances were given by Janet Neavy music being provided by Mr. J. Anderson with his melodious. Vocal soloists included Ernie Hill, Sis. E. Kostelnik, Sis. M. Martland; Sis. L. Lloyd, vocal duets by Bro. and Sis. Dave Gillespie, Sis. E. Smith and Bro. John Bayou, mandolin and piano selections by Bro. and Sis. Roy Whitehouse; clog dance by Sis. M. Martland.

At the close of the program Sis. N. Goulding presented Sis. Gillespie with a beautiful bouquet. The evening closed with the old favorite "For They Are Jolly Good Fellows."

Visitors from Hillcrest included Mr. and Mrs. J. Atkinson, Mr. and Mrs. W. Makin and Mr. Kontras and son Frank.

Polish Society To Celebrate 30th Charter Anniversary

The Polish Society of Brotherly Aid, comprising societies in Bellevue, Blairmore and Coleman, will celebrate the granting of their provincial Charter thirty years ago by sponsoring a banquet and concert on May 22.

The charter was granted by the provincial government on April 3, 1918, permitting the three Pass societies to combine and become known as the Polish Society of Brotherly Aid.

It is proposed to invite prominent Pass civic leaders to the affair and also Mr. J. Grochowski, of Toronto, president of the Canadian Polish Congress.

Executive meetings are scheduled for this week at which time consideration will be given to actual detail of the big event.

EVERYBODY'S BUSINESS

by
Don Graham

Everyone wants to be popular. But many of us make the mistake of thinking that popularity depends on having an attractive smile, an enthusiastic manner, and the ability to be a good mixer.

While these things help, not one of them is as important as being dependable—particularly in doing what you say you will do.

When people know that they can depend on you, it makes them feel secure. They think of you as a real friend to whom they can turn for help. So naturally they will like you better.

In your job, especially, dependability pays. So, among all the people you deal with in your work, try to build a reputation for dependability. Accept more responsibilities.

At home, too, you can cultivate dependability in matters that contribute to the family's welfare.

As you become known as a person whose word is as good as his bond you will find many people waiting to give you a warmer welcome!

Millions of Canadians know that they can depend confidently on their contracts with life insurance companies—contracts which provide financial protection in emergencies and retirement allowances for comfortable old age.

Tim Buck Defends Communism At Blairmore

(Lethbridge Herald)

Tim Buck, national leader of the Labor-Progressive party in Canada, addressed about 200 people in the Orpheum theatre, Blairmore, Sunday afternoon.

He called upon the people of Canada to oust the capitalist system in favor of the Communist scheme. He castigated the King government for not establishing a \$50 per month pension for laborers, who had worked for at least 25 years and had reached their 60th birthday. He claimed the workers of Canada were being held backward, unable to reach a high living standard because the Canadian economy was too closely tied to the American economy. The Abbott plan of managing economics was detrimental to the Canadian people and the recent import ban was denying the people of foodstuffs necessary to their bodily welfare.

He stated that the Progressive-Labor party would not run a candidate in opposition to the C.C.F. candidate in the forthcoming election even though the L.P.P. were running Ben Swankey of Edmonton in opposition to J. Lloyd, candidate of the C.C.F. party in the Pincher Creek-Crows Nest riding in the next provincial election. He explained this by quoting that the L.P.P. candidate in that riding had always polled more votes than the C.C.F. candidate and had a better chance of carrying the constituency.

Arm in Sling

Buck addressed the meeting with his left arm in a sling which was injured last week in an automobile accident near Kimberley.

Ben Swankey of Edmonton and L.P.P. candidate in the Pincher Creek-Crows Nest riding, addressed the meeting before the leader of the L.P.P. He claimed that legislation before the legislature to prohibit illegal strikes was an effort to take away the right of the working man to strike to right a wrong or correct a grievance.

He also claimed that the Social Credit government was anti-labor; that the 40-hour week be made compulsory for all industries, and that an injured workman should receive 100 per cent compensation of his earnings. He castigated the Social Credit government for giving outside interests leases on the best oil-producing lands in Alberta in spite of their so-called checker-board system of leasing lands with oil showings. He claimed the Imperial Oil Co. had drilled 39 oil wells and got production out of the 39.

He stated that in the next provincial election the L.P.P. would only contest the constituencies of Edmonton, Calgary and Pincher Creek-Crows Nest Pass. He stated in conclusion that the Pincher Creek-Crows Nest constituency had the honor of electing the first labor member to the legislature. He predicted that after the next provincial election they would have the honor of electing the first Communist to Edmonton.

...V...
IT'S A GOOD IDEA

Mayor Frank Aboussafy came up with a good idea on Monday morning which is worth a little publicity.

He suggests that the sidewalk from Zak's store right along the main street block be built up and the drainage system alongside the block be built up and improved. Citizens generally know the condition of this side of the street during the winter and early spring months.

The new construction which is about to start could be planned in such manner that they adjust themselves to a higher sidewalk.

In the past nothing could have been done to improve this particular side of the street. As a result of the buildings burning down possibly the only opportunity the council will ever have to improve the drainage system in this area of main street is afforded. It should be acted upon before it is too late.

...V...
ATTENTION COLEMAN MOTORISTS!

Victoria, March 8.—Motor tourists coming into British Columbia from the United States and other Canadian provinces come under terms of the new motor vehicles insurance law.

They must obtain non-resident insurance cards prior to entering the province or their cars are liable to seizure if they are involved in an accident.

Details of the act have been sent to government insurance officials in all states and provinces, and to automobile clubs and associations.

All motorists must have cards showing their financial responsibility if involved in an accident.

Already a motorist from Saskatchewan and another from Washington state had cars impounded until proof of financial responsibility was shown.

Alberta Government Telephones

Seek Site Here

Mr. William Russ, Plant superintendent, Calgary, was in town at the weekend on behalf of the Alberta Government. Telephones, seeking a main or second street lot on which to construct a small building.

It will be recalled that last year telephone subscribers were asked

to vote on a new telephone system which would give them private lines in addition to modern telephone receivers. The vote went in favor of the new system and the new building would be used to house the new equipment necessary to put the new system into effect.

HELP IN CASE OF ACCIDENT

In all cases of serious shock or injury, send for a doctor or ambulance at once. In the meantime, apply first aid promptly, but not hastily.

BLEEDING WOUNDS — Bleeding in spurts indicates severing of an artery. Steady flow indicates a vein has been cut. Bleeding from an artery should be stopped by applying pressure of the thumb, a compress or cloth pad over the artery at a point between the bleeding wound and the heart. In bleeding from a vein [steady flow], pressure should be applied on the side away from the heart. Where bleeding is not severe, a compress over the open wound should be sufficient. If bleeding is very severe, tourniquet may be made by tying handkerchief, cloth, belt, strap or necktie around the part over compress and using small stick, pencil or similar article with which to twist and tighten. Do not twist too hard, just enough to stop bleeding. Loosen every twenty minutes to let a little blood escape. Keep the part elevated.

SHOCK — Lay patient flat on back with head low, unless head is bleeding. Remove false teeth, gum or tobacco from mouth. Keep patient warm. Give stimulants such as aromatic spirits of ammonia in water, hot coffee, tea or water. Do not give stimulant to unconscious patients, or one who may have internal bleeding.

New Traffic Gadget Clocks Speed Of Cars Passing It On Busy Roadways

(By HAROLD KEEN, Central Press Canadian)

San Diego, Cal.—For years, policemen and highway safety engineers have struggled with the problem of estimating the speed of an approaching vehicle without having to swing around and follow it through hazardous traffic.

Today, R. B. Luckenbach, California division of highways safety engineer, believes he has the solution. To determine how fast an oncoming car is travelling, he need only place a gadget-filled apparatus by the side of the road, flick a switch and let electronics do the rest.

When an auto zips by, a hand spins on a speedometer-type dial and points to the speed with pinpoint accuracy, according to Luckenbach, who inspired the design of the new apparatus.

Luckenbach is putting the device into operation here to improve safety on highways. In California such evidence as furnished by his "electronic eye" cannot be used in court to convict a speeder.

After designing a highway on the basis of known safety factors that limit the legal maximum speed to 35 miles an hour, for example, Luckenbach can use his "magic meter" to clock the average speed of traffic.

If he finds that cars are travelling at 40 or more miles an hour, and that the rate of accidents is extremely low, he knows that his safety factors ought to be revised. Also, he can recommend posting of higher speed signs.

The reverse situation, of course, set housed in a packing case, Luckenbach applies if the accident rate at 35 miles an hour is unusually high. However, the important thing is to determine how fast traffic actually is travelling, and that's where the electronic eye fits into the safety picture.

The device also is used for measuring average speed between traffic signals so that they may be set to provide a smooth flow of cars at a safe pace. Time lengths between signal changes vary with the time of day. These can be determined by measurements of speeds in correlation with traffic volume.

What happens to traffic when a motorcycle officer suddenly appears on the scene? Luckenbach has measured the psychological effect of this phenomenon.

"The average motorist slows down 10 miles an hour when he notices a policeman on the highway," he says. An engineering firm developed the electronic eye for Luckenbach at his request. Its engineer, John Barker, tackled the problem in the sonic field. At first echoes from buildings and hills interfered with the sound waves, which the meter was to record.

Eventually Barker overcame the difficulty. The meter now is essentially a broadcasting and receiving

When the switch is turned on, the needle begins dancing across the dial, recording the speed of each passing car by use of the "Doppler principle." This is best understood by comparison with the whistle of an approaching locomotive. The closer it gets, the higher the whistle pitch becomes. This is because the sound waves are shortened. Then, as the locomotive passes and moves toward the opposite horizon, the whistle tone grows deeper as the sound waves lengthen.

Electronic waves reflected from a moving vehicle do the same. The faster the car approaches, the more rapidly do the sound waves shorten. The speed meter calibrates this change and shows the result in miles per hour.

As though he were a "ham" radio operator, Luckenbach had to get his electronic eye licensed by the federal communications commission. He has a call letter, W6XYD, and operates on 2455 megacycles.

SPEED CHECK—R. B. Luckenbach poses with the "electronic eye" speed measuring gadget

Motorcar Industry Breaking All Records

Britain is exporting more cars than ever before in the 50-year history of the motor industry. In 1946, the monthly rate was 7,200; in 1947, 11,900. In January of this year, it rose to 16,000 or 67% of output. This was apart from the 5,000 commercial vehicles and buses exported.

WAR MEDALS TO COST CANADA \$2,500,000

OTTAWA. The government estimates it will cost \$2,500,000 for war-time campaign stars and medals in the next fiscal year.

The estimate said the figure included the cost of distribution.

BEEF BREEDERS CONFERENCE—Prominent in the various sessions of the Edmonton Beef Breeders conference were, left to right: Lyle W. Royman, president of the Alberta Shorthorn Club; His Worship Mayor Alvin, of Edmonton; and C. C. Matthews, Calgary, who presided over the joint meeting of all three Breed Associations.

Polymyxin, Powerful New Germ-Killer Cures Dangerous Infections

BALTIMORE.—Successful clinical use of a new powerful germ-killer, Polymyxin, is described by John Hopkins hospital physicians. They report swift cures of undulant fever, whooping cough and other dangerous infections.

Beyond that, the drug may lead to mankind's final triumph over an ancient curse—Bubonic plague. It will be sent to India to determine if it works against the Black Death, they said.

Typhoid and paratyphoid fever, certain wound infections, types of meningitis, various urinary tract infections, tularemia (rabbit fever), blood poisoning, and bacillary dysentery also are among diseases against which the doctors found polymyxin "uniquely effective."

The drug is derived from bacillus polya. This is an organism commonly found in soil, water, sewage and muck, the doctors said. It is not yet available for general clinical use.

A nine-year-old boy, near death from a skin eruption with a secondary infection, was the first human to be treated with the new drug.

Physicians injected it in the form of a white powder under his skin. He was well in eight days.

One big advantage polymyxin has over the other recent "wonder drugs" is that the germs it attacks do not develop a resistance to it.

PARCELS NOT BARRED TO PALESTINE FORCES

OTTAWA.—The suspension of parcel post to Palestine Feb. 23 will not affect gift parcels sent to members of the British armed forces in Palestine or members of the Palestine police force, the Post office Department announced.

The department said that gift parcels limited to 20 pounds will be accepted here and transmitted to the United Kingdom where they will be routed to Palestine through British military postal facilities.

Moroccan children of the 17th century were not allowed to eat candy because it was considered a warrior's food.

PAINT JOB BRIGHTENS INTERIOR COLEMAN MOTORS

Adam Wilson and his front office staff are viewing with satisfaction these spring days the "new look" that has been given the interior of the front office.

During the past couple of weeks things have been upside down as painters and carpenters were at work, one painting ceiling and walls while the other built a new tire rack with which to better display new tires. To-day all is in order the ceiling and walls gleam in their brilliant whiteness while the former oak stained parts department has been painted a light green with dark green trimmings the advertising signs of "Mercury" and "Lincoln" are painted in white and stand-out against a green background.

The electric wiring throughout the garage is also being renewed and pipe is already on the premises. Other improvements are said to be contemplated both in the front and in the back work shop of the garage.

CANADIAN LEGION DISTRIBUTED BOOKLETS TO SCHOOLS

Coleman branch of the Canadian Legion has received a supply of booklets entitled "Canadian Democracy and Citizenship Action" from the head office of the Canadian Legion, Ottawa, and have placed a number in the local schools for the study of the students.

The idea of the booklet was given birth at the Quebec convention of the Canadian Legion when it was recommended that the Legion take the initiative in educating the youth of the community, including its own younger members, in the fundamentals of Canadian democratic government with particular reference to the constitution and governmental procedure. The booklet will aid one in his knowledge of our whole government system from the school board and town council through provincial legislatures to the Dominion parliament itself.

Advertising acts as a tonic to any head of business enterprise—

MOUTHS WATER when the fragrance of Maxwell House fills the air. This wonderful blend of coffees is Radiant Roasted to develop to the full all its extra goodness.

Curling Banquet

Saturday, April 10th

in the COLEMAN CURLING RINK, at 7 p.m.

Any outside curlers wishing to attend will be charged \$1.50 Per Person.

We Recommend the Exchange of PRODUCING OIL ROYALTIES for

Continental Oil Company of Canada Ltd.

TREASURY SHARES

AT 50c PER SHARE

BECAUSE OF THE FOLLOWING DIVERSIFIED INTERESTS:

- 1—One producing oil well in Leduc.
- 2—Now drilling three more wells in Leduc.
- 3—One producing well in Turner Valley.
- 4—A royalty interest in 96 other producing wells in Turner Valley.
- 5—A quarter interest in a producing well in Lloydminster.

WE SUGGEST that you exchange your royalties to obtain diversification in all the above mentioned wells and in property presently owned by Continental as well as property to be acquired in the near future.

WE BELIEVE that shares have a better future for capital gain than producing oil royalties in individual wells.

For Continental's Information Circular, photographs and maps and for cash purchases of treasury shares, apply to:

Marland Industrial Corporation

LIMITED

The Navy's the Life

Here's a career for young Canadians — an active life with travel, adventure and the satisfaction of serving your country in a famous uniform.

Never before in its peace-time history has the Royal Canadian Navy had so much to offer a young man. There are new ships with modern equipment . . . wide facilities for sports and recreation . . . and valuable skills to learn.

This is a man's job serving with the Royal Canadian Navy . . . a satisfying and secure profession.

SALT WATER CRUISES

Calling at foreign ports, sailing the high seas, visiting other countries — these are all in the line of duty for the men in the Royal Canadian Navy.

YOU LEARN A TRADE

You can learn about radio-telegraphy, naval gunnery, marine and electrical engineering, radar, asdic, loran, and other specialized skills. You will never regret the thorough and practical training you get in the Royal Canadian Navy.

AN ACTIVE LIFE

It is a busy exciting life in the Navy — and a healthy one too! Plenty of sports and physical training help you to develop a strong physique and keep you in top condition.

PENSION FOR THE FUTURE

The R.C.N. looks after its men. You will like the feeling of financial security and the assurance of free medical and dental care. Rates of pay have been increased, and after your service there is a generous pension for the rest of your life.

THE NAVAL RESERVE

If you can't enlist in the permanent service, you can join the R.C.N. (Reserve) and obtain, with pay, in your spare time the comradeship, the crafts, and skills for which sailors are famous.

Get the facts today from The Naval Recruiting Officer, Royal Canadian Navy, Ottawa

Your Money's Worth in Cotton

THAT'S a fine thing about cotton: whether it's a shirt, a handkerchief, bedsheet, or even a graceful wedding gown, you are sure of your money's worth.

Cotton gives value for the money. Long service, resistance to laundering, fastness to sunlight, and above all a clean freshness that makes life worth living in winter or summer; these are the things your dollars buy when you spend them on cotton goods.
